

Key Service: Security Solutions

JaxMatt offers subject matter experts in multiple security disciplines to identify gaps and recommend cost-effective solutions for easy implementation. Our security posture is to build long-term organic capability for our clients to effectively run their business or organization.

Security Consulting & Management Solutions:

- ◆ Risk and vulnerability assessments
- ◆ Special event security planning
- ◆ Security audits
- ◆ IT security planning
- ◆ National Security Special Event (NSSE) planning and support
- ◆ Critical Infrastructure Protection (CIP)
- ◆ Security force training
- ◆ Comprehensive exercise and drill services (design, execution, after-action, HSEEP compliant)
- ◆ Security training curriculum development and delivery
- ◆ Strategic risk management planning
- ◆ Security planning and operations analysis
- ◆ School campus security planning
- ◆ Facility security planning and design
- ◆ Pandemic security planning
- ◆ Grant funding support services

JaxMatt consultants have supported numerous National Security Special Events (NSSEs) in both the planning and operational phases. We can apply best practices from these high profile events to provide strategic planning solutions to efficiently integrate both security and safety into any project.
